Subject: INCOMPLETE COMPLIANCE - OPEN RECORDS ACT

ACCOUNTABILITY AND EXPOSURE OF BAD PUBLIC SERVANTS

I had previously requested a copy of Whitlock's employment application and "supporting documents". The request was partially complied with.

Under the Open Records Act, I have a right to obtain the drivers license records obtained and the criminal history records check Grantville obtained during Whitlock's background check. I did not receive those documents or the check list of all tasks completed during the background check. Where are the responses to background check questions and information sent out to people and former employers at? Where is his Army discharge papers? His school transcripts? His high school diploma or GED? He even states he attached copies of his training records to the application, where are they? **Where is his oath of office from the U.S. Marshall Service (he claims he was deputized)** they would have had him sign an oath to be deputized? Where is the copy of his EMT certificate?

A check list is the basic form used in all pre-hire law enforcement employment actions.

Are we hiding anything? Was anything on his employment application checked or varified? I smell a rat and I am about to trap it.

Have you guys promoted Cliff to Chief yet?

I do thank the patrol officers do a great job here in Grantville and I fully support them.
